

# Watcherr Soft Lite Touch

The first step into smart care

**watcherr**

## Product Overview

Elevate the standard of care with Watcherr Soft Lite Touch. From indoor alarms to accurate location tracking and indoor geofencing, this device is designed to provide safety, peace of mind, and a deeper connection between care providers and residents. (Requires Watcherr Gateways and Watcherr Beacons).

# Key Features

---

- **Indoor Alarm Button:**  
Ensure quick response in emergencies with the indoor alarm button. Instantly notify caregivers or responders when assistance is needed, enhancing safety within enclosed spaces.
- **Indoor Location Tracking with Beacons:** With our innovative beacon technology, Watcherr Soft Lite Touch offers precise indoor location tracking. Always be informed about the whereabouts of residents, even in complex indoor environments.
- **Indoor geofencing:**  
Our Watcherr Soft Lite Touch allows for the creation of virtual boundaries that can activate location-based alarms when a resident enters a restricted area.
- **Waterproof Design:**  
Designed to withstand everyday activities, Watcherr Soft Lite Touch is waterproof, providing uninterrupted safety even in wet conditions.
- **Extended Battery Life:**  
The device boasts a long battery life, minimising the need for frequent recharging and ensuring continuous safety coverage.
- **Soft touch button:**  
Some elderly people have difficulties in pressing a button. The Watcherr Lite Touch just requires a touch to trigger an alarm.
- **Monitor for Abnormalities:**  
Gain insights into resident activity patterns and behaviour. Monitor for any abnormalities or changes, enabling proactive caregiving and timely intervention.
- **Automatic System Updates:**  
Stay up to date effortlessly. Watcherr Soft Lite Touch's system updates occur automatically, eliminating the need for manual intervention and ensuring optimal functionality.

# Technical specifications

---

## General specifications

- **Dimensions**  
40 x 18 mm
- **Dimensions wristband**  
220 mm
- **Material**  
ABS+Silicone
- **Weight approximate**  
25 g
- **Waterproof**  
IP67
- **Battery**  
Li-ion battery, rechargeable  
3 months depending on usage

## Radios

- Frequency hopping 2.4GHz

## Monitoring and control

- Watcherr installer dashboard
- Firmware upgrade
- Device configuration

## Package content

- Watcherr Soft Lite Touch
- Wristband
- Device manual

## User interfaces

- Touch button
- Vibration
- Sound
- LED

## Regulatory compliance

- CE
- FCC
